We have recently opened a second location in Gainesville at 7915 Lake Manassas Drive, Gainesville, VA 20155. This is a brand new building with three treatment rooms and a therapy gym area located in Suite 101 of the building. The waiting room is large to accommodate families while they wait for their loved ones receiving physical, occupational, and/or speech and language pathology.

**Kristine Z. Trimble, PT, DPT**, is the pediatric physical therapist and also the team lead, who provides therapy to children with torticollis, gross motor delays, autism, TBI's, cancer, acquired brain injuries, cerebral palsy, ADD/ADHD, and dyspraxia (developmental coordination disorder). Kristine also offers aquatic therapy sessions in a therapeutic temperature. Kristine has attended several courses on autism and Asperger's Syndrome as well as the pediatric specialty certificate for aquatic therapy. She has also attended Yoga for the child with developmental disabilities.

**Pamela De Rivero, LPTA, ATRIC** is a physical therapist assistant who joined our team in November 2009. She has recently received her Aquatic Therapy and Rehab Institute Certification for aquatic therapy. Pamela has attended the orthopedic specialty certificate for aquatic therapy and an autism course since being hired.

**Sherrie Beres, MOT/L** is a pediatric occupational therapist who joined our team in July 2009. Sherrie is a pediatric occupational therapists who works with children with fine motor delays, visual processing deficits, autism, developmental delays, brain injuries, and handwriting difficulties. Sherrie has attended several continuing education courses on autism and Asperger's Syndrome. She has also attended a feeding course recently. Sherrie also attended Yoga for the child with developmental challenges and continues to integrate this into her daily practice.

**Christine Helsel, COTA** joined our team in January 2010. She is a certified occupational therapy assistant who has several years of great experience. She is interested in working with all children. She is on staff as PRN at this time for evening appointments.

**Sylvia Lagarda, MS CCC-SLP**, is the pediatric speech language pathologist who works with children with receptive and expressive language delays, apraxia, feeding delays, autism, developmental delays, articulation/phonological processing disorders, and brain injuries.

**Christine Red, MS, CCC-SLP** is another pediatric speech language pathologist who joined our team in February to assist in the Lake Manassas clinic. She also has several years of experience in pediatrics.
