

Our small groups have 4 children/teens to maximize the skill focus for your child

Transforming Lives ... Renewing Hope

# Social Stars Program

Our Social Stars program is designed for children in Kindergarten through 12th grade who have been diagnosed with Aspergers Syndrome and related disorders. We provide individual, family and group psychotherapy services. We use a variety of strategies in the individual and family sessions to structure the services to the specific needs of the child and family. Our groups are structured to meet the unique social and emotional needs of AS children and teens. We provide small groups designed to teach specific social and affect regulation skills using a variety of games, activities and art projects. The middle school and high school groups are divided by age and gender to provide opportunities to build successful peer relationship skills in a comfortable and fun environment. Our experienced mental health professionals can also assist you in advocating for your child within the school system.

**Groups:**  
K-2nd Grade  
3rd -5th Grade  
Middle School  
High School

We work with you to develop effective strategies so your child can be successful at school, at home and with peers .
