

As a full-time, tuition-free, online public school for grades K-8, Virginia Virtual Academy (VAVA) lets students learn in the ways that are right for them. We combine the research-based, award-winning curriculum from K12—America’s K-12 online education leader—with expert teachers and extensive support to provide an outstanding education that meets or exceeds state standards.

The key is our individualized approach, which makes the most of each child’s potential. In K-8, students can learn at their own pace with individualized lessons. Plus, student clubs, field trips, and other school outings keep families connected.

At VAVA, we believe every child can succeed when given the right opportunity. Find out why so many parents say we’ve made learning come alive in their children. I invite you to call or visit our website to start exploring VAVA today.
