

## Special Events:

The staff at WCP want to provide the best experiences possible for our little students. Each year we carefully consider all that might be done. This year we will visit a local farm as well the Udvar-Hazy, Air and Space Museum at Dulles. We believe that although our students are young, they will absorb the bigger concepts of space, space travel, machines, grand architecture of the museum, and much much more. We are so excited to be able to provide both field trips this year.

We also have our annual events:

Harvest Party, a formal Christmas Program, Special Guests, And an End of Year/Graduation program where we have a special ceremony "The Releasing of the Butterflies".

## New This Year:

This year we are fortunate to have Mrs. Kim Bridges, owner of Excel Dance Studio, to provide our students with weekly music and movement classes. She has many years of expertise in this field. We have long enjoyed a wonderful relationship with Kim through both her children and in supporting her studio.
