

JULY 31 - AUGUST 4

BUSTING BUILDERS, ages 4 - 5

Busting Builders is for kids ages 4 - 5 and they will be building, creating, and inventing with all kinds of things including some Legos® purchased just for this week.

JR. LEGO® Robotics, ages 6 - 7

Limit of 12 Campers

We have a brand new program for Jr. Lego Robotics this year called WeDo2® by Lego® Education. It is designed especially for 6 - 7 year olds. Campers will build robot models and learn to program them.

LEGO® ROBOTICS, ages 8 - 12

THE AMERICAN REVOLUTION

Limit of 14 Campers

Campers will go back in time and find themselves immersed in the American Revolution. As tensions rise between the British and the Patriots, who will fire the shot that is heard around the world? Once the Patriots declare their independence, they must complete their missions in order to gain their independence. Their journey towards independence includes the signing of the Declaration of Independence, crossing the Delaware, the Midnight ride of Paul Revere, and The Boston Tea Party, to name a few. Finally they will meet on the battlefield at Yorktown.

AUGUST 7 - 11

SCIENCE FROM THE BIBLE, Ages 4 - 6

Campers in this group will do all kinds of experiments using light, color, motion, magnetism, and gravity. Some of the experiments include Making Water Stand Up, How Rainbows are Made, and A-maze-ing Magnets.

SPARKS, Ages 7 - 11

This camp is sure to spark your interest as your camper learns all about electricity. Campers will create circuits, make a simple motor, learn about static electricity, make electric play dough, and create sculptures that light up.
